

Vision Statement

Our vision at SPEC is to provide the Oil and Gas industry with innovative engineering services from conception thru to start-up. We do this by engaging and challenging our team of experts to excel and to never stop thinking “outside the box”.

Our commitment to you as our client is deep; we want you to feel that SPEC Engineering is just an extension of your own company.

■ **Innovation:**

Difficult problems sometimes require difficult solutions~ whatever the case may be, rest assured that SPEC has a solution or has the experience and know-how to "Engineer" a solution.

■ **Satisfaction:**

If you are not completely satisfied with SPEC, please tell us. For us, it's all about client satisfaction. We approach each and every project as if we own it. That means we take ownership from conception to operation ~ and if you aren't satisfied, neither are we!

■ **Value Added Engineering:**

In order to help grow our clients it may be necessary to reduce operating costs, increase production and optimize processes. SPEC has the hands-on experience to help achieve these goals. Our goal is to add value to the project.
